 - B. Coast to Coast Connector Update-Kelly discussed the webinar that the Coast to Coast Connector Trail Stakeholders held in late March and how a new logo was selected and approved. Discussed wayfinding signs on the trail and that a company is being considered for soliciting sponsors to cover the costs. These proposed signs include a Wi-Fi hotspot on each sign, offering the visitor an opportunity to download amenities that are in the area. The byway organization discussed the County’s position on maintenance and sponsors listed. The group felt they would be better off purchasing their own enhanced wayfinding signs in addition to what the FDOT provides. Their website, www.c2cconnector.org offers up to date status on the feasibility study.
 - C. Transportation Alternative Program-Dawn to email the letter to Judie to sign and Kelly would take to her meeting at the MPO. Updated the new guests on the Exit 309 I-75 project. Chris Daun indicated that there may be an opportunity with the local garden club to have a Blue Star Memorial Highway marker/sign to be put on the Veteran’s Memorial Highway off the exit.
 - D. Grant Writing Committee-Mike reported that a webinar on grant writing would be sponsored by the FSHP in September. He presented a couple grant opportunities available: A NHPRC grant and a Historic Preservation grant for written materials. Grant recipients in the past have received \$50,000 to \$500,000 in funds. Sumter

County has received funds for renovation of the historic courthouse in Bushnell as did the Center Hill High School building (which has since been torn down).

She sent him the material list and based on what their possible material donation may be, will approach another donor. Mike Woods indicated that the Black Bear Byway has erected 12 kiosks since their program began and that they were constructed in his garage and put up by volunteers.
